## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 1-6, 8, 9, 11-13 are allowed.

## Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest a coordinate measuring device having a probe or a method of measuring the position of an object whereby the object is contacted by a stylus of a probe comprising elastic means including two spaced-apart spring members, and magnet means incorporated within a plate of nonmagnetic material and appearing on surfaces at both sides of the plate of nonmagnetic material, wherein the plate is located between the two spaced-apart spring members and wherein said magnet means are for damping vibrations of the stylus by generating eddy currents in the conductive material of each leaf spring of said elastic means in combination with the remaining limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The following application and patents disclose coordinate measuring devices Ruijl et al. (US PGPUB 2006/0053648), Hajdukiewicz et al. (U. S. Patent No. 7,086,170), Hajdukiewicz et al. (U. S. Patent No. 7,055,258), Butter et al. (U. S. Patent No. 5,390,424), McMurtry (U. S. Patent No. 4,288,925).
